County Judge

Subject: **Multiple Monthly Probate Settings**

Effective September 1, 2014, the court will continue to establish a designated day each month to offer settings for probate hearings. A court reporter will be provided at these hearings at the Court's expense. In an effort to accommodate special settings, other than the monthly court setting, applicants or members of the legal community would be able to request a special setting. **These requests would require a two week notice be given to the County Judge's Office, and would be subject to the availability of a court reporter for the date and time requested.** The applicant or attorney requesting the special setting would be responsible for bearing the cost of the court reporter's services. Attorneys making the request could include several cases with each special setting.

Sincerely,

A handwritten signature in blue ink that reads "Jacques L. Blanchette".
